

iConnect® Training **ADVANTAGES**

We are proud to be focused **EXCLUSIVELY** on the HVAC/R industry!

BENEFITS OF iCONNECT TRAINING:

- **Enhanced visibility and real-world troubleshooting** on professionally designed, safe and effective training systems
- We offer **current technology like Mini Split Heat Pumps and Building Automation Systems**
- Every Training Unit with a refrigeration cycle comes with patented, cutting-edge technology: **the iManifold® diagnostic kit**
- **Partnered with the industry's leading curriculum provider, HVACRedu.net**, to offer technically accurate, challenging, and customizable eLearning options that complement our hands-on learning experience
- Introducing our **iConnect Training Instructors' Technical Club** – building a community to connect HVAC/R instructors with their peers and provide a best-in-class customer experiences

WHAT PEOPLE ARE SAYING:

“The iConnect TU-9240 is a wonderful teaching tool for our students to use; it's hands on, easy to use and packs a great learning experience.”

– Don Eldridge, Training Coordinator
Local 520 Plumbers & Pipefitters, Harrisburg, PA

“The iConnect 406C training unit makes my teaching much easier – the students love it and it rocks!”

– Dusty Rose Cm., RSES Certified Mechanic
HVAC Training and Development
Keefe's Air Conditioning & Heating, Inc., Harvey, LA
